Materials

Body: Cast Iron
Spring: Stainless Steel
Seal: Viton®

Viton® is a registered trademark of DuPont Dow Elastomers.

Approvals

UL MH6518

ATEX FTZÚ14ATEX0204

Guide Specification: Emergency shut off valve for installation under gasoline dispensing units. Incorporates a replaceable shear section and a heat sensitive fusible link assembly. Valve can be manually operated to facilitate dispenser maintenance and incorporates a 3/8" test port. Closing poppet assembly is positioned out of the fuel flow path to minimize pressure drop. The A0060 utilizes a standard three boss mounting arrangement. Available in single poppet and double poppet configurations.

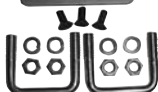

Model No.	Stainless Steel	Description	Inlet	Outlet	Weight	SST Wt.	A	B
A0060-002		1 1/2" Single Poppet	Female	Male	5.7 lbs.		6.9"	2.2"
