WILSON, NC 27893 USA

MH1460

Non-interchangeable types, Nos. A800L, A800T, A845, A845GB manual type.

Interchangeable service-station types, No. A800 manual type; Nos. A-2000, A-2001, A2500, A2501, TA2000 automatic closing type with latch-open device; No. SA2000 automatic closing type without latch-open device.

Rebuilt interchangeable service-station types, Nos. RA-2000, RA-2001, RTA2000 automatic closing type with latch-open device; No. RSA2000 automatic closing type without latch-open device.

Non-interchangeable type, No. A6000 automatic closing type with latch-open device.

Rebuilt non-interchangeable type, No. RA-6000 automatic closing type with latch-open device.

Vapor recovery types, Nos. A4500, A4505, A4507 automatic closing type with latch open device and with no pressure/no flow device.

Vapor recovery types, No. A3003 automatic closing type with latch open device and with no seal-no flow device; No. A3003S automatic closing type without latch open device and with no seal-no flow device; No. A3005 coaxial automatic closing type with latch open device and with no seal-no flow device; No. A3005S coaxial automatic closing type without latch open device and with no seal-no flow device;

No. A3006 automatic closing type with latch open device and without no seal-no flow device; No. A3006S automatic closing type without latch open device and without no seal-no flow device; No. A3007 coaxial automatic closing type with latch open device and without no seal-no flow device; No. A3007S coaxial automatic closing type without latch open device and without no seal-no flow device.

Vapor recovery types, Nos. A4000, -4004 twin automatic closing type with latch open device and with no seal-no flow device; Nos. A4001, -4001A, -4005, -4005EVR, -4007, -4011, -4015, -4205, -4507EVR coaxial automatic closing type with latch open device and with no seal-no flow device; No. A4002 automatic closing type with latch open device and without no seal-no flow device; No. A4003 coaxial automatic closing type with latch open device and without no seal-no flow device.

Rebuilt vapor recovery types, No. RA3003A automatic closing type with latch open device and with no seal-no flow device; No. RA3003S automatic closing type without latch open device and with no seal-no flow device; No. RA3005 coaxial automatic closing type with latch open device and with no seal-no flow device; No. RA3005S coaxial automatic closing type without latch open device and with no seal-no flow device; No. RA3006 automatic closing type with latch open device and without no seal-no flow device; No. RA3006S automatic closing type without latch open device and without no seal-no flow device; No. RA3007 coaxial automatic closing type with latch open device and without no seal-no flow device; No. RA3007S coaxial automatic closing type without latch open device and without no deal-no flow device.

Rebuilt vapor recovery types, Nos. RA4000, RA4004 twin automatic closing type with latch open device and with no seal-no flow device; Nos. RA4001, RA4001A, RA4005, RA4007, RA4011, RA4015 coaxial automatic closing type with latch open device and with no seal-no flow device; No. RA4002 automatic closing type with latch open device and without no seal-no flow device; No. RA4003 coaxial automatic closing type with latch open device and without no seal-no flow device.
