A4005

BALANCE VAPOR RECOVERY NOZZLE

CARB Executive Order G-70-199-AJ
Classified by UL to UL 2586, Valves for Flammable Fluids
Approved by the New York Department of Environmental Conservation
and the Oregon Department of Environmental Quality

Materials

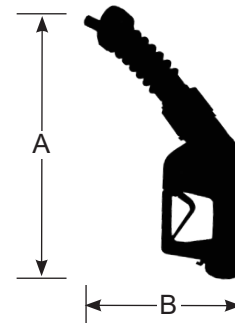

Body & Spout: Aluminum
Lever: Thermoplastic
Lever Guard: Aluminum
Seals: Nitrile & Viton®
Scuff Guard: Vinyl

Guide Specification:

Balance system vapor recovery nozzle constructed with sand cast aluminum body, extruded aluminum spout (SAE specifications 150 lbs. shear groove). Internal vapor valve, no-seal no-flow interlock and automatic shutoff. Internal pressure shutoff to detect vapor blockage. Viton® o-rings on main seals. Bellows constructed of HDPE to resist twisting, cutting and tearing.

Viton® is a registered trademark of DuPont Dow Elastomers.
