

A7901 CONTROLLED I.D. PIPE NIPPLES/RISERS

A7901 CONTROLLED I.D. PIPE NIPPLES/RISERS

Emco A7901 Pipe Nipples/Risers hold a 4.134" controlled I.D. with 4" NPT top and bottom threads.

The controlled I.D. allows for pipe nipples to be used with submersible pumps and in Emco remote fill systems. These pipe nipples can also be used as an extension to a fill pipe in a spill container.

Stock sizes are listed below and custom sizes are available on request. Pipe nipples in 316 stainless steel are available for special order.

PIPE THREAD CAPS

All Emco pipe nipples ship with durable HDPE pipe thread caps to ensure pipe threads arrive damage free.

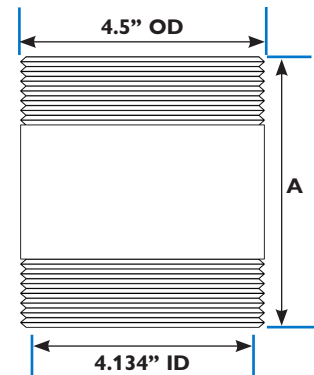

NO INTERNAL WELD BEAD

BLACK PAINTED STEEL

PART NUMBER	WEIGHT	LENGTH A
A7901-004	2.2 lbs.	4"
