

A0996, A0997, A0998 ID TAGS & MARKERS

Identify product grade with bright, full color ID tags and markers

Emco Wheaton offers a complete line of fiberglass embedded, color coded ID tags and markers. The tags are easy to clean and maintain, and made to withstand extreme weather.

- » A0996 Stick-on ID tag - 3.5" diameter, for use on Emco spill containment.
- » A0997 Tank ID Tag - attaches with spring tension to the storage tank fill pipe to identify the product grade, tank number and tank size.
- » A0998 In-Ground ID Marker - used to identify the product grade in the underground tanks. The base is constructed of die cast aluminum for a smooth appearance; the lower profile with beveled edge minimizes tripping hazard.

All Emco ID Tags and markers can be used on most competitors manholes

All A0996, A0997 and A0998 ID tags are available with **custom etching** for specific product grade requirements. The ID tag material is aluminum, anodized black and laser etched white. Contact customer service at 800-234-4394 for ordering information.

A0997-002KIT Gallonage Kit*

Includes eight tags

• 10,000 •	• 30,000 •
• 9,000 •	• 20,000 •
• 8,000 •	• 15,000 •
• 6,000 •	• 12,000 •
