

# A0025 TELESCOPING DIFFUSER

## A0025 TELESCOPING DIFFUSER

The A0025 Telescoping Diffuser affixes to the bottom of a drop tube to better control the flow of fuel during the tank filling operation.

Disperses fuel laterally to prevent stirring up debris and to promote an even mixing of fuel.

Attaches to Emco, OPW, and Franklin drop tubes; **no special adapter needed.**

Hardcoat anodized Aluminum for superb fuel resistance.

Telescoping open HDPE bottom to prevent damage to the tank

### A0025 IN ACTION

Scan the QR code above to watch the A0025 Diffuser in a simulated fuel drop.

**PART NUMBER:** A0025-001
